

Acer recommends Windows 10 Pro.

TravelMate Spin B118 is conceived to make learning more engaging, creative and fun. With an 11.6-inch display and a convertible design, it is perfectly sized for portability, while four usage modes allow students to work the way they like best.

In addition to the tough design that makes it resistant to accidental bumps, drops and spills, the Travelmate Spin B118 comes with Acer Education Suite, enabling new ways of interaction in the classroom.

- WINDOWS 10 PRO
- ACER TEACHSMART FOR ENGAGING LEARNING
- UP TO 13 HOURS OF BATTERY LIFE
- 11.6" FULL HD OR HD TOUCH SCREEN
- LIQUID-SPILL DRAINAGE DESIGN
- 360-DEGREE HINGE DESIGN
- SUPPORT FOR STYLUS PEN¹ AND WINDOWS INK

Acer recommends Windows 10 Pro.

Long lasting learning

With a battery life of up to 13 hours³, TravelMate Spin B118 backs students up at school and beyond. Typing on the chiclet keyboard is comfortable and the Precision Touchpad makes navigation more responsive. The flexible, four-mode design includes Tent and Display, for group projects and sharing; Tablet for on-the-move activities, such as field trips or working in labs, and Notebook mode for writing papers or taking notes. The robust 360° hinge offers a wobble-free, optimised touch experience.

A game-changing approach

With either Windows 10 S or Windows 10 Pro, TravelMate Spin B118 enables students and teachers to enjoy the freedom to work in the most productive and personalised way possible. While both OS offer a familiar and productive Windows experience, Windows 10 S is streamlined for security and performance. It starts up quickly, keeps on running fast and works with apps from the Windows Store apps exclusively.

Windows 10 Pro enables users to do more all at once while providing enterprise-grade security. To reduce the time and energy spent in managing IT, it also includes best-in-class management tools.

Features such as Windows Hello for fast and secure password-free sign-in, Windows Ink and Cortana, make learning a more collaborative and engaging experience.

A natural experience

Using the Acer Active Stylus¹ students can unleash their creativity, as they draw, jot down notes or edit documents, enjoying a natural experience like using pen and paper. Acer Active Pen distinguishes the palm away from the pen's tip, so writing or drawing is more comfortable. What's more, everything you write or draw appears on the screen almost immediately making the whole process smooth, fluid, and precise. Pressure sensitivity means you can draw thin or thick lines depending on how hard you press.

Built tough

The TravelMate Spin B118 is well equipped to make it through the daily rigors of school life. The shock-absorbing rubber frame protects against accidental bumps and drops, while the reinforced body structure makes the device resistant to a pressure of up to 60 kg. A drainage system under the keyboard protects internal parts by draining up to 330 ml of liquid spills.

Thanks to its reinforced rubber keyboard frame and spill resistant keyboard, TravelMate Spin B118 passed several MIL-STD810G² design tests with flying colours, confirming the durability of its rugged design.

The notebook can also be secured to a cart or a desk via a Kensington lock.

Subject to dripping water flow at 342.5 ml/m2/min over 1 min repeatedly.

15 x humidity test cycles from 59% RH - 88% RH performed at 31 °C - 41 °C

Repeated drops up to 122 cm performed on packaged and unpackaged unit.

Repeated temperature increased to 49 °C

Several rounds of accelerated and random vibration performed on rms = 7.7gs one hour per axis.

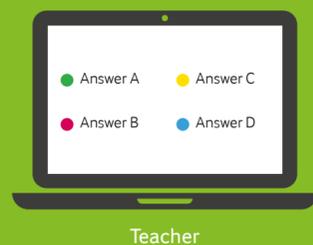

Repeated temperature decreased to -32 °C

A smart way to teach, an engaging way to learn

The Travelmate Spin B118 comes with Acer Education Suite, comprising Acer TeachSmart™ and Acer Classroom Manager.

Acer TeachSmart™ features a 4-colour LED light, embedded on the cover of the laptop, that can be used to keep track of students' status and progress and to make classroom participation more dynamic.

Teachers can create and send out quizzes and surveys to the entire class or to smaller groups.

The indicator lights on the notebooks show which options have been selected. As Acer TeachSmart™ works with a Microsoft account, teachers can use the Power Share feature to hand out assignments directly to students' Microsoft OneDrive storage.

Seamless connectivity

Students can rely on fast dual-band 2x2 MIMO 802.11ac wireless technology to connect to their school network. Bluetooth 4.0 and several ports, including USB 3.0 port, one USB 2.0 port and one HDMI port, ensure students can join to the device any peripherals they need. The built-in SD card reader provides more storage and helps to share files.
